Dedication of the Basilicas of Sts. Peter & Paul: November 18th

This feast celebrates the dedications of two of the four major basilicas of Rome.

Saint Peter's Basilica was originally built in 323 by the emperor Constantine. The basilica was constructed over the tomb of Peter the Apostle, the Church's first Pope. After standing for more than a thousand years, Pope Julius II ordered the building to be torn down due to structural concerns. The construction of the new church spanned over 200 years before its completion. It was dedicated on Nov. 18, 1626.

Saint Paul's Basilica is located outside the original walls of Rome. It was also built by the emperor Constantine though it was destroyed by fire in 1823. Donations from around the world made the reconstruction possible. The Basilica was built over St. Paul's grave. These two churches draw millions of faithful pilgrims each year.
