## THE NATIONAL CATHOLIC BIOETHICS CENTER

50 YEARS OF SERVICE, 1972-2022

The Mission of The National Catholic Bioethics Center is to provide education, guidance, and resources to the Church and society to uphold the dignity of the human person in health care and biomedical research, thereby sharing in the ministry of Jesus Christ and his Church.

Decades of experience, six full-time PhD ethicists, and the trust of US bishops and the Vatican make The National Catholic Bioethics Center the premier provider of ethics consultation services for Catholic organizations such as dioceses, Catholic health care institutions, and employers.

On June 24, 2022, the Solemnity of the Sacred Heart of Jesus in our 50th anniversary year, the NCBC officially launched a new Personal Consultations Department!

Thanks to the Supreme Court's *Dobbs v. Jackson* decision—a major victory for the dignity of the human person—this date will be long remembered in history. What a providential alignment of events!

In an increasingly impersonal era, NCBC is elevating personalized moral guidance to the forefront. Modern health care can be cold, bureaucratic, distant, technologized, automated—and a truly caring, human voice can be hard to find, much less one that is faithfully Catholic.

We have the training, expertise, and magisterial fidelity to help you form your conscience with trustworthy resources and confidential, person-to-person interaction.

Through its Catholic Identity and Ethics Review (CIER) program, the NCBC provides comprehensive, consistent reviews of Catholic hospitals, health care systems, and nursing homes based on the USCCB's *Ethical and Religious Directives for Catholic Health Care Services*.

**Over the years, NCBC has helped tens of thousands of Catholics navigate challenging health care decisions through our free consultation service, available 24/7.** Our one-on-one explanations of Church teachings and their applications assist many people in
